- JULY 2019 ISSUE -

“Do what you can, with all you have, wherever you are.”

- Theodore Roosevelt

HABITAT FOR HUMANITY works to positively impact Highland County by bringing people together to build or improve homes, communities and hope!

It's an exciting time as Habitat for Humanity of Highland County has started a new home build right here in Lynchburg. They are helping a very deserving family into a simple, decent and affordable place to call home.

Habitat for Humanity of Highland County is still seeking volunteers and monetary donations for this build. If you would like to contribute in any way please contact Kelli Rosselott for details or leave a message at 937-661-5629.

Habitat for Humanity is a catalyst for individual and community transformation. Visit www.hchabitat.org or [Facebook.com/highlandcountyhabitatforhumanity](https://www.facebook.com/highlandcountyhabitatforhumanity) to see other ways you may help carry out the mission.

PROPERTY UPKEEP :

The Village has received several complaints from residents about property owners not properly disposing of their trash, leaving newspapers lay in the front of their yards, not mowing, and/or not maintaining their property. We need your help keeping our Village in clean & in order. Please be advised that property upkeep is part of the Ohio Basic Code 93.41

Community Church Day

Sunday September 8th at the Old School Park
Church Service will start at 10:30 - Lunch to follow

- All are welcome, bring a chair!
- Inviting all area Churches!

Please, do not block waterways!

Open ditch drainage is a long narrow trench or furrow dug in the ground for irrigation, drainage or a boundary line. It is present at the front, along the side or at the rear of a property. Open ditching may look like a "low spot" in your yard, but it serves a very important role in ensuring water moves away from your home. This gently sloped area, lower than the surrounding land, allows excess rain water to flow freely and to be drained away from yards, crawl spaces or basements. This environmentally friendly drainage method, also allows the surrounding grassy area, shrubs and trees to absorb the water they need, while the rest flows down the open ditch.

Please do not block or change the ditching as it can cause overflows in certain areas.

Energy Saving Tips You'll Love

When temperatures rise, your energy bill doesn't need to follow

It's Not Just the Heat...

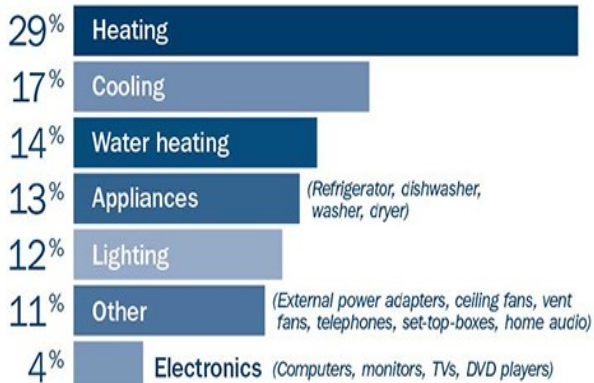

Average annual energy bill

Single home

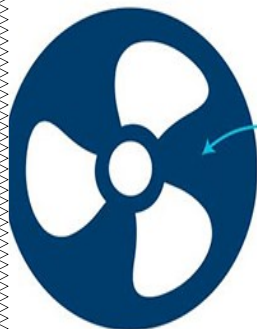

\$2,200

Typical expenditures

Fans vs. Air Conditioners

Here's the skinny on this great summer debate.

People who prefer fans to air conditioners:

2%

\$0.24

Amount it costs to run a ceiling fan for a day

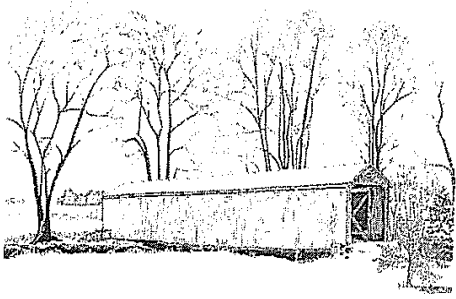

\$8.64

Amount it costs to run an air conditioner for a day

15 Ways to Save Money on ELECTRICITY This summer

1. Check your air ducts for leaks
2. Replace your air filters regularly
3. Make sure your vents are *actually* open
4. Use the "Energy Saver" option on your AC
5. Instead of turning off your AC during the day, cut the temperature back 7-10%. (Your AC won't have to work as hard to cool your house back down)
6. Consider investing in a programmable thermostat
7. Only run full loads when using your large appliances (washer, dryer, dishwasher)
8. Use appliances in off-peak hours if you can (usually after 8PM)
9. Do your laundry in cold water (it won't damage your clothes like you think it will)
10. Try sun drying your clothes instead of using the dryer
11. Skip the heated dry cycle on your dishwasher
12. Use power strips and shut them off when you aren't using what's plugged in
13. Keep your curtains closed (reduces incoming heat by up to 30%)
14. Install awnings on south and west facing windows
15. Consider installing window AC units in bedrooms so you only have to cool the bedrooms at night, instead of the whole house.
